CENTS

0, 00	765	1793 Chain. Head of Liberty. Date and CXC large. No periods. Shows all the fine lines of the hair. A few minute nicks on obverse, and surface of field very slightly oxidized; otherwise brilliant, olive surface. Olive-brown color. Extremely fine and very rare. Purchased in Europe a year ago for \$70 and afterwards sold for \$40.	
5 00	766	1794 Small head. Uncirculated. Even, strong impression, with perfect milling on obverse and reverse. Rich olive-brown color. A magnificent coin, and as this variety (Moria, No. 12) is usually weak and found in poor condition, it would prove a fine acquisition to the collector of varieties, as well as for its beauty. Excessively rare. This was the finest specimen in the Bushnell sale, and is limited at \$25.	

1. 50 767 1794 Light impression, as usual. Maris, No. 12. Fine.
 1. 50 768 1794 Maris, No. 32. Very fine. Brown color.
 2. 10 769 1795 Thin planchet. Planchet irregular on edge in front of
 face. Extremely fine. Light olive.
 50 770 1798 Small date. Fine.
 16. 50 771 1800 Erroneous date, sometimes called over '99, but probably
 caused by the die sinker forgetting the change in the century,
 as 7 and 9 show distinctly, but no 9 in last 0. Uncirculated.
 Beautiful light olive color. Extremely rare.
 16. 25- 772 1801 Bold, sharp, even impression; perfect, even milling on ob-
 verse and reverse; no part weak. A cent of this date with
 these qualifications is of seldom occurrence, and this specimen
 is the finest example we have seen. Beautiful olive color, and
 in extremely fine condition. Excessively rare. *swared*
 1- 30 773 1802 Extremely fine. Almost uncirculated. Steel color.
